## .NET Developer

[Apply Now](#)

Company: Ciklum

Location: Argentina

Category: computer-and-mathematical

### Description

**Ciklum** is looking for a **.NET Developer** to join our team full-time in LATAM.

We are a custom product engineering company that supports both multinational organizations and scaling startups to solve their most complex business challenges. With a global team of over 4,000 highly skilled developers, consultants, analysts and product owners, we engineer technology that redefines industries and shapes the way people live

### About the role:

As a .NET Developer, become a part of a cross-functional development team engineering experiences of tomorrow.

### Responsibilities

Develop parts of features or modules with acceptable quality with moderate supervision

Efficiently use development toolset, follow code standards and team agreed rules

Create tests to cover their own code and cover most cases for business logic

Investigate and fix application bugs

### Requirements

We know that sometimes, you can't tick every box. We would still love to hear from you if you think you're a good fit

C# .NET (version 4.7 and higher)

TFS

Interest in working with legacy code with suboptimal pattern usage

Proficiency in debugging and unit testing

Desire to gain knowledge in logistics industry

Good English skills

**Software Design** Use of the best practices and patterns when designing and implementing application components  
Describing own code within technical documents and simple diagrams

**Software Development** Knowledge and experience in C# and .Net. Use of main supporting third-party libraries;  
Prior record of web applications development with using and configuring framework features  
Practical experience in writing complex queries to relational or NoSQL databases

**Quality Assurance** Background in writing unit and integration tests  
Proposing code improvements

**Software Deployment** Following the CI/CD process established on the project  
Using project infrastructure for development and troubleshooting

### **Desirable**

Participation in code reviews

Knowledge and experience in application security concepts

Practical experience with any message broker systems

Practical experience in the use and configuration of ORM framework features

### **Personal skills**

Communication is a key. You speak and write in English fluently or at least at upper- intermediate level

**Accountability** Following the “said and done” principle  
Accountability for the own scope of work

**Drive** Demonstrating a proactive approach and strive for constant improvements

**Self-development** Strive for learning and growth  
Constant work on own mastership and self-

development

### **What's in it for you**

Care: your mental and physical health is our priority. We ensure comprehensive company-paid medical insurance and mental health programs, 5 undocumentated sick-leave days per year

Tailored education path: boost your skills and knowledge with our regular internal events (meetups, conferences, workshops), Udemy license, language courses and company-paid certifications

Growth environment: share your experience and level up your expertise with a community of skilled professionals, locally and globally

Long-term employment with 20 working days paid vacation and local bank holidays

Flexibility: 100% remote work mode

Opportunities: we value our specialists and always find the best options for them. Our Internal Mobility Program helps change a project if needed to help you grow, excel professionally and fulfill your potential

Global impact: work on large-scale projects that redefine industries with international and fast-growing clients

Welcoming environment: feel empowered with a friendly team, open-door policy, informal atmosphere within the company and regular team-building events
