Company: Welocalize

Location: Argentina

Category: computer-and-mathematical

Welocalize is an award-winning localization and data transformation company. We run one of the world's largest Ads Rating Programs and we want you to join!

As an Ads Quality Rater, you will review and grade internet advertisements to help shape how ads are delivered to the end users. In other words, you'll tell the AI program how good or bad its advertisement suggestions are based on the user's keywords.

You will review ads in both **English** and **Spanish**

This role is great for people who:

- Surf the internet daily
- Use major search engines frequently
- Know what people want based on a few keywords
- Enjoy researching topics online
- Want a flexible and fun side job
