## Argentina Solutions Architect

[Apply Now](#)

Company: Amazon Web Services Argentina

Location: Buenos Aires

Category: computer-and-mathematical

At Amazon Web Services (AWS) we are inventing the future of cloud computing with a team of builders who try new things and dream big dreams. Our web services provide a platform for IT infrastructure in-the-cloud that is used by hundreds of thousands of developers and businesses around the world. Ten years ago, we couldn't have imagined how far we would come. Now we're inventing for the next ten years and beyond. But it is still Day 1 for us, and we are looking for curious people to be part of our diverse teams of thinkers, testers, and doers.

Our Solutions Architects team is seeking candidates to join our AWS team with a variety of skills to help shape and deliver on our cloud strategy for our global customers and partners. As a solutions architect, you will be on the front line of helping customers succeed using AWS technologies, linking technology with measurable business value for organizations ranging from start-ups to large, enterprise customers. You will be a trusted customer advocate, helping our partners understand advanced cloud-based solutions and how to migrate existing workloads to the cloud.

We are open to hiring candidates to work out of one of the following locations:

Buenos Aires, ARG

### **BASIC QUALIFICATIONS**

- 8+ years of specific technology domain areas (e.g. software development, cloud

computing, systems engineering, infrastructure, security, networking, data & analytics) experience

- 3+ years of design, implementation, or consulting in applications and infrastructures experience
- 10+ years of IT development or implementation/consulting in the software or Internet industries experience

### **PREFERRED QUALIFICATIONS**

- 5+ years of infrastructure architecture, database architecture and networking experience
- Knowledge of SAP systems (like SAP Business Suite, S/4HANA, SAP Business Warehouse, SAP HANA, SAP Business Objects, etc.) and their architecture and infrastructure needs
- Experience working with end user or developer communities
