Business Analyst – OP0974-01

Are you in Argentina, Brazil, Colombia, Chile, or Costa Rica? Join us as we actively recruit in these locations, offering a comfortable remote environment. Submit your CV in English, and we'll get back to you!

We invite an experienced Business Analyst to join one of the two delivery teams under a brand-new sub-project for our client, an industry-leading payment processing solution provider offering merchant services to over 275,000 businesses in the US. Your responsibilities will include examining, analyzing, and evaluating business systems and user demands, as well as documenting requirements, establishing scope and objectives, and developing systems to align with overall business strategies.

What's in it for you:

Enhance your general knowledge of the fintech domain and boost your technical expertise across a wide range of payment processing business areas

Advance your level of verbal and written English through continuous communication with US-based teams, stakeholders, and the client

Is that you?

2+ years' experience as a BA or Product Owner in the fintech domain

Demonstrated leadership and teamwork skills

2+ years' experience with Agile methodologies and Waterfall project management

methodology

Solid theoretical and practical knowledge of BA methodology and tools (functional/non-functional requirements, use cases, user stories)

Proven presentation skills and effective facilitation abilities

Experience working with UI development and large data transformations

1+ year' experience in cloud-based development (GCP, AWS, Azure)

Upper-Intermediate+ English level

Desirable:

Bachelor's degree in Computer Science – Engineering

Professional training and certification in BA and PM fields

Technical background and experience with card processing systems

Key responsibilities and your contribution

We are looking for a person capable of making balanced and efficient decisions on both operational and business levels. Apart from hardcore business analysis skills, you must have excellent communication and organizational abilities, great teamwork competencies, and the mindset of a leader and facilitator.

Cooperate with Product Leaders to capture high-level business requirements and translate them into technical specifications; create epics and user stories for the team

Participate in User Acceptance testing to ensure that the product fully meets the description and established acceptance criteria and delivers value

Drive backlog grooming sessions; contribute to forming the team's backlog, vision, and future roadmaps

Participate in teamwork planning sessions; help create a strong purpose and sense of urgency within the team to ensure a timely delivery of projects

Maintain documentation related to the project progress

Validate and coordinate release processes, utilizing data analysis tools
