

Cloud Solution Engineer

[Apply Now](#)

Company: Vates

Location: Córdoba

Category: computer-and-mathematical

Descripción

We are currently seeking a **Cloud Solution Engineer (Ref. 1280)** to join our team.

We are a team passionate about technology, innovation, and research. At Vates, an EPAM company, we are excited to offer world-class custom software development services. We have more than 30 years of experience providing IT services and solutions to large companies in the USA and LATAM.

We recently joined EPAM Systems, a global leader in software development, to expand our international horizons. This alliance allows us to enhance our capabilities in cloud delivery, testing, engineering, and cutting-edge digital services while allowing you to be part of a unique international team.

We guide the exponential and digital transformation of some of the world's leading companies, such as Motorola, Intel, IBM, Oracle, etc. Vates is recognized by Clutch.com as a top Internet of Things company.

Our people are the top 10% of IT talent. If you are interested in becoming part of our team of the best professionals, with the structure and resources of a market-leading multinational, apply!

In Vates, an EPAM company, you will participate in different projects made up of multicultural teams distributed in different parts of the world. We are looking for proactive leaders, oriented to teamwork, passionate about programming, and who seek to provide the best experience to the end user.

Responsibilities of this role include:

Collaborate with senior architects and pro serv project managers to evaluate and enhance internal IT infrastructure, identifying opportunities for improvement and optimization in cloud migration, cost efficiency, and performance enhancement.

Develop and implement customized cloud migration strategies, facilitating the transition of internal workloads from on-premises to cloud-based environments.

Assist in designing, configuring, and managing the implementation of internal cloud-based infrastructure, networking, and security solutions, ensuring alignment with specific requirements and compliance with industry standards and regulations.

Work closely with senior architects to plan, design, and deploy scalable and highly available cloud-based services and applications.

Stay informed about the latest trends and developments in cloud computing and Microsoft Cloud Solutions.

Requirements:

In-depth understanding of cloud computing concepts, particularly in Microsoft Azure and Office 365 environments.

Proficiency in designing, configuring, and managing cloud-based infrastructure, including networking and security solutions.

Ability to develop and implement customized migration strategies, focusing on O365, Azure, mailbox migrations, and modern workplace technologies.

Strong project management skills to collaborate with senior architects and project managers, ensuring projects are delivered on time and within budget.

Skill in monitoring and optimizing cloud-based infrastructure and services, with a proactive approach to identifying and resolving issues.

Microsoft Certified Azure Associate, Expert, and Architect: Azure 900, 104, 305

Microsoft Certified Microsoft 365 Administrator: MS 900, MS 102, MD 102, MS 700, MS203

Microsoft Certified: Security, Compliance, and Identity: SC 300, SC 400

Upper-intermediate English level

Workplace: 100% remote / Full-time

This opportunity could be yours, join the #TeamVates!
