Job Description & Summary

A career within Enabling Technologies Consulting services, will provide you with the opportunity to help our clients develop technology and applications that makes decisions easier, tasks simpler, and drives business results. Simply put, we help companies enable their growth and improve operational efficiencies by developing strategies to harness the benefits of their current technology or by integrating new enterprise systems.

The Service Now Process Automation team collaborates with clients to solve complex business challenges utilizing ServiceNow as a technology platform. We focus on business problems related to cybersecurity, risk & compliance, human resources, enterprise architecture and configuration management along with being technical experts in all areas of the ServiceNow platform.

To really stand out and make us fit for the future in a constantly changing world, each and every one of us at PwC needs to be a purpose-led and values-driven leader at every level. To help us achieve this we have the PwC Professional; our global leadership development framework. It gives us a single set of expectations across our lines, geographies and career paths, and provides transparency on the skills we need as individuals to be successful and progress in our careers, now and in the future.

As an Associate, you'll work as part of a team of problem solvers, helping to solve complex business issues from strategy to execution. PwC Professional skills and responsibilities for this management level include but are not limited to:

Invite and give in the moment feedback in a constructive manner.

Share and collaborate effectively with others.

Identify and make suggestions for improvements when problems and/or opportunities arise.

Handle, manipulate and analyse data and information responsibly.

Follow risk management and compliance procedures.

Keep up-to-date with developments in area of specialism.

Communicate confidently in a clear, concise and articulate manner - verbally and in the materials I produce.

Build and maintain an internal and external network.

Seek opportunities to learn about how PwC works as a global network of firms.

Uphold the firm's code of ethics and business conduct.

Preferred skills

Information Technology, Computer Science or related field

Good level at English
