Company: Epm

Location: Buenos Aires

Category: computer-and-mathematical

Description

DESCRIPTION

Fast-track your career with EPAM as a **Data Integration Engineer!**

This position allows you to utilize your strong knowledge of databases, relational concepts, and proficiency in SQL, to develop optimal database queries and solve complex business problems with advanced analytics.

If direct customer interaction and contributing to building enterprise data platforms excite you, look no further.

EPAM is a leading global provider of digital platform engineering and development services. We are committed to having a positive impact on our customers, our employees, and our communities. We embrace a dynamic and inclusive culture. Here you will collaborate with multi-national teams, contribute to a myriad of innovative projects that deliver the most creative and cutting-edge solutions, and have an opportunity to continuously learn and grow. No matter where you are located, you will join a dedicated, creative, and diverse community that will help you discover your fullest potential.

Responsibilities

Utilize your strong knowledge of databases, including SQL optimization, relational concepts, and more

Work with at least one Relational Database Management System such as MS SQL Server, Oracle, MySQL, or PostgreSQL

Design and implement data integration solutions, model databases, and contribute to developing enterprise data platforms using classic data technologies and tools

Engage with customers effectively, leveraging strong interpersonal skills

Contribute to the team effectively with strong oral and written communication in English

Requirements

Good knowledge of databases such as SQL optimization, relations, stored procedures, transactions, and isolation levels

Experience with at least one relational database is essential

Proficiency in SQL

Experience in designing and implementing data integration solutions and in contributing to building enterprise data platforms

A plus if experienced in direct customer communications, proficient English required

Technologies

Experience in coding with one of the data-oriented programming languages: SQL, Python, SparkSQL, PySpark, R, Bash, Scala

Expected experience working with at least one Relational Database (RDBMS: MS SQL Server, Oracle, MySQL, PostgreSQL)

We Offer

Health Insurance

Life Insurance (SVO)

Occupational Risk Insurance (ART)

Paid Time Off Vacations. 14 calendar days a year, the number of days will increase by seniority based on local law rules

Sick leave

Exceptional Leave. Take paid time off for your major life changes (childbirth, marriage, etc.)

Compensation of costs for internet, electricity, and personal laptop usage (if applicable)

Stable full-time workload

Thousands of projects for top brands

Stable income

Referral Program

Certification opportunities

Unlimited access to LinkedIn learning solutions

Language courses
