Data Scientist/Data Analyst. Jr/SSR Híbrido AMBA – ID 200/255

[Apply Now](#)

Company: Werben HR

Location: Buenos Aires

Category: computer-and-mathematical

A data scientist who will be part of a software development team, analyzing information from media audiences provided by different organizations, creating data models and algorithms to be used in different company products.

For this role, you should be highly analytical with a knack for analysis, math and statistics. Critical thinking and problem-solving skills are also essential for it.

We want a candidate with passion for research, team player with a sense of urgency and a commitment to quality and professionalism.

Responsibilities:

- Identify valuable data sources and automate collection processes
- Analyze large amounts of information to discover trends and patterns
- Present information using data visualization techniques
- Build predictive models and algorithms.
- Propose solutions and strategies to business challenges
- Collaborate with engineering and product development teams
- Bring best practices in data architecture and data visualization to the table
- Develop technical documentation.

Minimum Qualifications:

Minimum Bachelor's Degree in Computer Sciences, Information Technology, or its equivalent

Proven experience as a Data Scientist or Data Analyst.

Experience in data mining

Experience with distributed data/computing tools like Map/Reduce, Hadoop, Hive, Spark, etc.

Experience using Amazon Web Services.

Experience using R, SQL and Python; familiarity with Scala, Java or C++ is an asset

Experience of machine-learning and algorithm development.

Knowledge of software engineering practices such as version control.

Analytical mind and business acumen

Strong math skills (e.g. statistics, algebra)

Problem-solving aptitude

Excellent communication and presentation skills

Desired experience with media and ad tech platforms (Ad Servers, Media Planning and Buying systems, DSP's, Programmatic, etc).

Locacion: Hibrido, AMBA
