DevOps Engineer, Kubernetes

[Apply Now](#)

Company: Avature

Location: Bahía Blanca

Category: computer-and-mathematical

Avature is a flexible product and building it requires using a variety of tools with an adaptable approach. DevOps Engineers are fundamental in that process, as they provide the tools and environments used throughout the development cycle. Additionally, as a bridge between our infrastructure and development teams, they are key to enable collaboration towards common goals in our Engineering area. For this particular position, you will specialize in deploying, configuring and maintaining the Kubernetes environment, essential to continue evolving our platform.

Your challenges and objectives:

Provide the Kubernetes environments where Avature's applications run.

Help maintain a strong and fluent relationship between the Development and Cloud Services areas.

Take ownership of our internal and external hosting needs and ensure their security and availability.

Assist in defining the team's roadmap, goals, and needs.

Your day-to-day activities:

Deploy, configure, and maintain the Kubernetes platform.

Automate Kubernetes system tools and environment deployments.

Stay up-to-date on new functionalities, best practices and ways to implement Kubernetes.

Interact with other teams to promote best practices and train them on the use of the Kubernetes platform.

Monitor Kubernetes clusters.

Document processes, workflows, and architecture.

About you:

Experience working with Linux-based operating systems.

Knowledge in automation, configuration management (e.g. Puppet), monitoring, Python, Bash, and infrastructure as code (e.g. Terraform, CloudFormation).

Experience in product-as-a-service operation is a plus.

Software development skills are a plus.

Experience with container technologies such as Kubernetes, Docker, and OpenShift is a plus.

About us:

Avature is a market leading enterprise SaaS Solution provider for global talent acquisition and talent management. We have a strong commitment to high quality engineering and customer service and are recognized innovators in the very large company market. We currently work with over 650 companies worldwide, including 110 of the Fortune 500, all of the Big Four consulting firms, the largest banks and manufacturers in the world, and five governments. We design, build, implement, and support our product ourselves. With 26 releases a year and a strong commitment to innovation and quality engineering, our private cloud platform has become the product choice for the very large global organization. At Avature, we value opportunities to learn and grow within a dynamic, creative, and collaborative environment. We encourage autonomy and empower our people to approach challenges innovatively while bringing their unique perspective to the table. We offer a career development program that supports continuous learning and thoughtful leadership, and that meaningfully impacts each individual's professional trajectory.

What we offer:

A fast-paced, energetic, and engaging environment.

Flexible hours.

Work remotely or come by the office as much as you want.

Four salary reviews per year.

Option to earn part of your salary in US dollars.

Three weeks vacations from the first year.

Four weeks paternity leave.

OSDE 310 health coverage (family plan).

Four days a year to attend events related to professional development.

End of year week off (December 26 to 31).

Internet service expenses.

Birthdays off.

An organizational culture that empowers everyone to be themselves is key to thrive in business, but more importantly, it is a pathway for creating a more equitable society. Avature fosters a diverse and inclusive environment and celebrates that each unique person brings something different to our team. We are committed to considering all qualified applicants equally and to promoting equal opportunities within our organization.
