

Argentina Jobs Expertini®

Full Stack Developer

[Apply Now](#)

Company: SnaPhunt

Location: Argentina

Category: computer-and-mathematical

The Offer

Great work environment

Opportunity to make a positive impact

Work within a company with a solid track record of success

The Job

Responsibilities:

Produce well designed efficient code in a timely manner to meet delivery timescales/milestones.

Should demonstrate the ability to handle multiple projects simultaneously, manage priorities and communicate progress effectively.

Produce significant, reusable, scalable code that adheres to industry standards and best practices.

Keep up with the latest web development methods and technologies, and apply them to the project.

The Profile

Requirements:

2+ years of experience in the same capacity.

Experience with JavaScript, Node.js, Express.js, and Angular, and database technology such as MySQL is required.

Experience with Github and advanced Github features.

Experience in responsive design, cross-browser compatibility, and website performance.

Excellent verbal communication skills. Strong team player and communicator. Good problem-solving skills.

Strong organizational skills and attention to detail.

The Employer

Our client is a digital, interactive platform based in Positive Psychology, targeting employees' emotional wellbeing and their enjoyment in the workplace; developing social corporate responsibility that results in a higher productivity. Organizational development benefits are countless: personal development, interpersonal competence, participation, commitment, work satisfaction and work democracy feelings amongst employees.
