

Argentina Jobs Expertini®

Full Stack Engineer (Argentina)

[Apply Now](#)

Company: 1840 & Company

Location: Argentina

Category: computer-and-mathematical

Our client is one of Switzerland's leading players in cyber security, its expertise is recognized by businesses, institutions, and the media. Our experts are regularly solicited on consulting, protection, and incident response projects. We are looking for a skilled Full Stack Engineer to join our team. This role requires a strong background in both frontend and backend development. The ideal candidate will be proficient in React.js for frontend development and have solid experience with Python, Django, and AWS for backend development. As a Full Stack Engineer, you will be responsible for building complete web applications, from UI/UX design to server-side logic and database handling, including the creation of dynamic data visualization tools. Rate in USD: \$13.0 (Per Hour)

Responsibilities Design and develop high-quality, scalable, and robust web applications. Utilize React.js and Material-UI for frontend development, creating responsive and visually appealing interfaces. Develop backend services and APIs using Python and Django. Manage AWS cloud infrastructure and Docker containerization. Implement dynamic data visualization tools as part of the frontend. Ensure the entire stack is designed and built for speed and scalability. Work closely with cross-functional teams to understand requirements and deliver comprehensive solutions. Write clean, maintainable code and perform code reviews. Troubleshoot, debug, and upgrade existing systems.

Requirements Strong experience with both frontend (React.js, Material-UI) and backend (Python, Django) development. Proficiency in AWS cloud services and Docker. Solid understanding of the software development life cycle and agile methodologies. Excellent problem-solving and communication skills. Nice To Have Experience with Node.js. Experience designing and implementing ETL pipelines. Knowledge of database technologies

(e.g., PostgreSQL, MySQL). Familiarity with continuous integration and deployment (CI/CD) practices. Understanding of RESTful APIs and web services

Benefits

- Work from home
- Access to diverse projects
- Opportunities for professional growth
- Collaboration with diverse teams
- No commute time
- No dress code (unless there's a meeting!)
- Eco-friendly work lifestyle
- Exposure to a multicultural team
- Potential for long-term engagement
- Improved work-life balance
