

Argentina Jobs Expertini®

Full Stack Software Engineer

[Apply Now](#)

Company: SnaPhunt

Location: Argentina

Category: computer-and-mathematical

The Offer

Transparent and social culture, challenging work, fast learning cycles, and meaningful feedback

Strong sense of ownership and strategic work that impacts our product, users, colleagues, and business

Complete flexibility, minimal meetings, and the ability to work remotely from anywhere in the world

The Job

Responsibilities

Work across our full tech stack, building scalable solutions that enable positive user experiences

Develop new features and infrastructure in support of business and product requirements

Investigate and resolve production bugs and other customer issues

Ensure application performance, uptime, and scale, maintaining high standards of code quality and thoughtful application design

The Profile

About You

1+ year(s) of full stack engineering experience in a start-up environment

Proficiency in React and Typescript/Javascript

Portfolio of past projects is nice to have, but not required

The Employer

Our client give logistics companies a competitive advantage in moving freight, by automating the core workflows that drive their business with AI.
