## Intern

[Apply Now](#)

Company: Moody's

Location: Buenos Aires

Category: other-general

### The Role

The Intern will provide assistance to the analytical team in operational matters related to the credit analysis process, as well as in the preparation of research reports and in other projects that Moody's Local develops.

The Intern will work closely with Associate and Analysts. This role provides an opportunity for the candidate to learn and develop analytical skills and to contribute towards the success of the team by providing support to overall credit analysis.

The Intern role will focus on multiple sectors and will support analysts that cover different portfolios and methodologies.

### Key Responsibilities

Prepare materials for briefings and research reports.

Gather and prepare financial information of the issuers rated by Moody's Local.

Produce analytical summaries of quantitative information for analysts.

Support the analytical team in different projects.

### Experience/Qualifications

Third year or higher active student in a bachelor's degree program or equivalent in Economics, Accounting or a Business-related discipline.

Familiarity with financial statements and accounting standards.

Financial/statistical research capabilities.

Strong academic background with good grasp of accounting and financial knowledge.

Advanced knowledge of Excel is required. Macros, PowerPoint is desirable

English speaking and writing capabilities are a plus.

Schedule availability for 20 hours per week.

Strong verbal, written communication, and interpersonal skills in Spanish.
