

Lead Infrastructure Engineer - AWS

[Apply Now](#)

Company: JPMorgan Chase & Co.

Location: Buenos Aires

Category: computer-and-mathematical

Assume a vital position as a key member of a high-performing team that delivers infrastructure and performance excellence. Your role will be instrumental in shaping the future at one of the world's largest and most influential companies.

As a Lead Infrastructure Engineer at JPMorgan Chase within the Business Collaboration Team, you apply deep knowledge of software, applications, and technical processes within the infrastructure engineering discipline. Continue to evolve your technical and cross-functional knowledge outside of your aligned domain of expertise.

Job responsibilities

Applies technical expertise and problem-solving methodologies to projects of moderate scope

Drives a workstream or project consisting of one or more infrastructure engineering technologies

Works with other platforms to architect and implement changes required to resolve issues and modernize the organization and its technology processes

Executes creative solutions for the design, development, and technical troubleshooting for problems of moderate complexity

Strongly considers upstream/downstream data and systems or technical implications and advises on mitigation actions

Adds to team culture of diversity, equity, inclusion, and respect

Required qualifications, capabilities, and skills

Formal training or certification on software engineering concepts and 8+ years applied experience

Deep knowledge of AWS and Python.

Deep knowledge of one or more areas of infrastructure engineering such as hardware, networking terminology, databases, storage engineering, deployment practices, integration, automation, scaling, resilience, or performance assessments

Drives to continue to develop technical and cross-functional knowledge outside of the product

Deep knowledge of cloud infrastructure and multiple cloud technologies with the ability to operate in and migrate across public and private clouds.

Preferred qualifications, capabilities, and skills

Fluent in English
