[Apply Now](#)

Company: RINA

Location: Buenos Aires

Category: architecture-and-engineering

RINA is currently recruiting for a **Marine Argentina Operations Senior Surveyor** to join its office in **Buenos Aires, Argentina** within the Marine Americas Region Division.

Mission

To conduct the assessment and inspection of ships and other marine structures during construction and in operation, ensuring compliance with Class requirements, statutory regulations, and any other applicable standards.

#LI-KM2

Job Responsibilities

Act as a professional specialist for the organization in applying related rules, regulations, requirements, concepts, principles, and processes.

Prepare and maintain technically accurate and timely reports of inspections and assessments.

Perform routine inspections on classed ships, platforms, or other marine structures at manufacturing sites to ensure compliance with classification and statutory requirements.

Collaborate with colleagues on various projects and tasks.

Work closely with senior professionals to gain practical experience in the field.

Requirements

Minimum 3 years experience in the engineering or inspection/survey fields with an IACS member Classification Society

Bachelor's degree in Naval Engineering, Ocean Engineering, or similar.

Significant experience in marine vessel or structure inspection.

Strong knowledge of classification rules, statutory regulations, and related technical requirements.

Strong communication and problem-solving skills.

Ability to work independently and as part of a team.

Advanced computer skills.

Proficiency in the English language commensurate with the scope of classification, statutory certification, related services and, before assignment, with their future work.

Additional Information

Workplace: Buenos Aires, Argentina

With over 5,600 employees and 200 offices in 70 countries worldwide, RINA is a multinational player which provides certification, marine classification, product testing, site supervision and vendor inspection, training and engineering consultancy services across a wide range of sectors. Our business model covers the full process of project development, from concept to completion. The aim is to guarantee a project's technical, environmental and safety - and sometimes also economic and financial - sustainability.

At RINA, we endeavor to create a work environment where every single person is valued and encouraged to develop new ideas. We provide equal employment opportunities and are committed to creating a workplace where everyone feels respected and safe from discrimination or harassment of any kind. We are also compliant to the Italian Law n. 68/99.
