Updated: April 10, 2024 Location: Argentina-Latin America - ARG-Home-Based, Argentina Job ID:24002434-ARG975 Medical Director Syneos Health is a leading fully integrated biopharmaceutical solutions organization built to accelerate customer success. We translate unique clinical, medical affairs and commercial insights into outcomes to address modern market realities. Our Clinical Development model brings the customer and the patient to the center of everything that we do. We are continuously looking for ways to simplify and streamline our work to not only make Syneos Health easier to work with, but to make us easier to work for. Whether you join us in a Functional Service Provider partnership or a Full-Service environment, you'll collaborate with passionate problem solvers, innovating as a team to help our customers achieve their goals. We are agile and driven to accelerate the delivery of therapies, because we are passionate to change lives. Discover what our 29,000 employees, across 110 countries already know: WORK HERE MATTERS EVERYWHERE Why Syneos Health We are passionate about developing our people, through career development and progression; supportive and engaged line management; technical and therapeutic area training; peer recognition and total rewards program. We are committed to our Total Self culture – where you can authentically be yourself. Our Total Self culture is what unites us globally, and we are dedicated to taking care of our people. We are continuously building the company we all want to work for and our customers want to work with. Why? Because when we bring together diversity of thoughts, backgrounds, cultures, and perspectives – we're able to create a place where everyone feels like they belong. Job responsibilities Provides medical oversight of assigned clinical studies in the duty as a medical

monitor. Often serves as primary medical contact for customers for assigned clinical studies. Provides medical input and oversight in support of the Drug Safety and Pharmacovigilance department. Responsible for protocol design and development, upon request. Provides input into protocol amendments. Develops and delivers project-specific and therapeutic training to project team members and clinical site staff; provides training to customer staff as needed. Provides medical and therapeutic input to Study Start Up, Feasibility, and Subject Identification efforts. This activity includes, but is not limited to, review of Informed Consent Templates and Subject-Facing Materials, and input into site feasibility evaluations. Provides medical input into data collection tools, monitoring plans, and review and analysis plans. Provides oversight to assigned Medical Scientist staff and Medical Director colleagues to review clinical data. Presents identified trends and issues, and mitigation strategies, to customers and project team members to minimize risks to subject safety or integrity of study data. Provides after-hours medical coverage for clinical studies. Adheres to all enterprise policies, work instructions, standard operating procedures, and project plans. Adheres to customer policies and standard operating procedures, as required in project plans. Maintains in-depth knowledge of FDA and worldwide drug development regulations and national and ICH Good Clinical Practice (GCP) guidelines. May support responses to Requests for Proposals (RFPs) or Bid Defense Meetings (BDMs), upon request. May provide input to clinical development or regulatory teams within the Company, upon request. May represent the Company at scientific meetings, upon request.

**Qualifications** What we're looking for: Doctorate degree in medicine and clinical experience in the practice of medicine in the specific therapeutic area. Clinical research experience required. Candidate must have in depth knowledge of FDA and worldwide drug development regulations. A strong understanding of the use of medical terminology and of drug names in multiple nations and environments is required. Experience working in matrix teams is preferred. Proficiency in Microsoft Office Suite (Word, Excel, and PowerPoint), email, and voicemail. Effective organizational and interpersonal skills, communication and language skills, and group presentation skills. Above average attention to detail, accuracy, organizational, interpersonal, and team-oriented skills. Ability to handle multiple tasks to meet deadlines in a dynamic environment is essential. Ability to be customer-focused and have a disciplined approach to work is critical. Fluency in written and spoken English is essential. Up to 25% travel may be required.
