Company: Eleks

Location: Argentina

Category: computer-and-mathematical

Eleks is searching for a Middle React developer in Argentina.

Our customer is a company from the USA, which is focused on the stage

lighting equipment rental and is the global provider of stage lighting services and technical

expertise. The company reached a leadership position in their industry and has been

operating in the market since 1985.

REQUIREMENTS

At least 5+ years of experience with React

Experience with TypeScript

Upper-Intermediate level of English

RESPONSIBILITIES

Develop solutions and algorithms according to technical specifications or other

requirements documentation; use standard algorithms in the applicable cases

Write program code according to the defined application architecture

Structure and format the source code, comment and mark up the code, as well as name

variables, functions, classes, data structures, and files according to the company conventions

and industry best practices

Modify existing code and verify its functioning. Analyze code compliance with readability and

performance standards

Use version control systems to track code optimization progress and to merge or split program code entities. Commit changes according to version control rules.

Perform analysis, verification, and debugging of the software code at the level of application units

Detect defects, apply debugging methods and techniques, correctly interpret bug reports, as well as apply modern compilers, debuggers, and program code optimizers

Able to develop procedures for testing code availability, collecting diagnostic data, generating test data sets with necessary characteristics, identifying required software characteristics etc

Reproduce defects logged in an issue tracking system, identify defect causes, and then modify code to eliminate defects

Able to develop and document program interfaces, software module and component assembling procedures, software deployment and update procedures as well as data migration and transformation (conversion) procedures

Estimate and set up task completion terms independently

Evaluate and coordinate task deadlines with Technical Leader or Project Manager

May have valid competence-related certifications

Participate, both as a trainer or a trainee, in various learning programs outside the major project

What will you get with ELEKS

Above average compensation

Close cooperation with a customer

Challenging tasks

Competence development

Ability to influence project technologies

Projects from scratch

Team of professionals

Dynamic environment with low level of bureaucracy

ABOUT

ELEKS is a custom software development company. We deliver value to our clients, thanks to our expertise and experience gained from working as a software innovation partner since 1991.

Our 2000+ professionals located in the Delivery Centers across Eastern Europe and sales offices in Europe and North America, provide our clients with a full range of software engineering services. These include product development, QA, R&D, design, technology consulting and dedicated teams.

Benefits
