Company: Sur

Location: Buenos Aires

Category: computer-and-mathematical

A private equity firm, is seeking to hire a Private Equity Associate to join the team. The firm manages a rapidly expanding portfolio of internet-based companies. The firm looks to acquire proven businesses that have strong metrics and potential, supported by significant growth. By introducing our infrastructure, and leveraging our expertise to quickly accelerate growth we're able to provide solid returns to our investors. This individual will actively engage in all aspects of research, acquisitions, and portfolio management under general supervision from the leadership team.

Responsibilities

Evaluate new investment opportunities for their risks and possible returns driven by detailed financial analysis.

Actively participate in and drive the due diligence process when evaluating new investments.

Prepare investment committee materials for the presentation of various investment opportunities.

Perform business, financial, and operational analysis across portfolio companies to help influence senior management decision-making.

Assist with ad-hoc special projects and support the development of long-term strategic initiatives across portfolio companies alongside executive leadership.

Requirements

1-2+ years of related work experience in corporate development, financial services, M&A investment banking, or private equity is preferred.

Strong analytical skills, including knowledge of valuation methodologies.

Strong financial modeling & attention to detail.

Full understanding of financial statements.

Experience preparing detailed financial models and company business valuations.

In-depth experience forecasting Balance Sheets, Cash Flow Statements, and Profit and Loss Statements, including the linking of all 3 statements in one dynamic model.

Strong verbal and written communication skills.

Effectively manages and prioritizes multiple projects.

Flexible and adaptable to changing priorities and new challenges.

Ability to meet deadlines and work well under pressure.

High level of professionalism, integrity, discretion, and good judgment.

Graduate with a Bachelor's degree, preferably in business, mathematics, finance, or economics.

Strong Excel and PowerPoint skills.
