## QA Functional

[Apply Now](#)

Company: CONEXIONHR

Location: Argentina

Category: computer-and-mathematical

We are a fast growing startup with a goal-based savings, financial literacy and smart spending platform, made just for kids and powered by those who love them.

The company uniquely engages kids from all backgrounds in understanding how to build wealth and learn financial language by offering fun, quiz-based games that are developed using memes and gifs from hip-hop artists, social media influencers and pop culture personalities.

### **What's in it for you?**

The company offers all team members a fun, mission-driven environment with competitive compensation and a flexible time-off. We are a team that believes in teamwork, creativity, challenging work that stretches you, and changing the world. We're excited to have the right teammate join us in our movement.

### **Responsibilities:**

- Take ownership of all QA functional efforts.
- Prevent issues.
- Understand the product requirements.
- Seek to ensure a complete test coverage for all functionalities, test cases design and execution.
- Participate in all the QA cycles (sprint work tests, smoke tests, regression tests, integration tests)
- Document and Report issues following the existing QA process and Test plan.
- Incharged to ensure the highest quality on the delivered product, Report issues and follow up.

### Qualifications:

- QA engineer with great organizational, reporting and communication skills to handle quality assurance at every stage of our development process.
- To be able to suggest improvements related to the existing QA process for our development life cycle.
- Proven ability to work in a collaborative environment as well as independently, proactive and tidy.
- You should be detail oriented and self-driven.

### Nice to have:

Understanding of:

- Ms SQL Server.
- Browserstack Mobile tool.
- AWS dynamo logs.
- Test Rails testing tool.
- CI/CD (Jenkins)
