

Remote Electrical Engineer

[Apply Now](#)

Company: Uptalent.io

Location: Buenos Aires

Category: other-general

Uptalent.io is a global platform that connects the most exciting companies in the world with top talent from Latin America. Our goal is to provide the best engineering talent to companies worldwide, delivering maximum value at a competitive cost. We are currently seeking a Remote Electrical Engineer to join our team.

As a Remote Electrical Engineer at Uptalent.io, you will be responsible for designing and developing electrical systems and components for mechanical or industrial engineering projects. You will work closely with other engineers and project managers to ensure that projects are completed on time, within budget, and to the highest standards. With remote work becoming more common, we are looking for a flexible and adaptable engineer who can thrive in a remote environment.

Responsibilities

Provide electrical system design support for projects

Continue to develop personal engineering skills

Work towards attaining professional registration if not already registered.

Provide input for continuous improvement of engineering processes

Work with Project Managers on assigned engineering tasks

Ensure design complies with regulatory, code, and client requirements

Work with Designers to execute engineering tasks

Requirements

Experience with design of typical building plumbing systems including domestic water, waste/vent, and storm piping systems

Proficient knowledge of International Plumbing Code

Proficient in MS Office

Proficient in Autodesk Revit

Minimum one year experience with plumbing system design (domestic, sanitary, storm)

Benefits

Work From Home or anywhere.

Highly Competitive Compensation.

Work for the most exciting companies in the US.

Flexible Schedule.

Healthy Work-Life Balance
