## Senior ABAP Software Engineer for SAP S/4HANA for FPSL, LATAM region

[Apply Now](#)

Company: SAP Pioneer

Location: Argentina

Category: computer-and-mathematical

Do you want to be part of a new, fast-growing global company delivering the next generation of software solutions for the financial services industry?

As a spin-off from SAP (a market leader in enterprise application software), SAP Pioneer builds on a heritage of outstanding technology and a deep understanding of corporate and consumer demands. This gives us a head start to bring financial services to the next level with innovative software solutions and platforms. We are helping companies in the financial services industry to achieve speed, scalability, and cost-efficiency through digital business innovation, cloud technology, and solutions that cover banking and insurance processes end-to-end.

SAP Pioneer is a global company with subsidiaries in Germany, Austria, Switzerland, UK, UAE, Canada, US, Brazil, Mexico, Japan, Australia, India, Singapore. Our rapid growth, great team and lean organization make SAP Pioneer a great place to accelerate your career!

### **YOUR RESPONSIBILITIES**

Join a team that promotes an empowered culture, allowing all employees the ability to contribute and to make a difference. We value people that do what it takes to deliver superior results to our customers. We embrace innovative technology and new ideas. We are an Agile shop, constantly tinkering with our process to bring the most value to the customer while making all our lives better.

The customer base of our product SAP S/4HANA financial products subledger are banks, insurers and fintech companies. These companies face tremendous change of their business driven by increasing digitalization and mega trends such as cloud-based information

infrastructure or artificial intelligence.

Our “S/4 HANA for Financial Products Subledger” is one of the hottest products in the market to support our FSI customers in IFRS 9 and IFRS 17 compliant accounting and reporting.

We are looking for new team members to join us in our success story!

As a developer in our scrum team you are responsible for developing high-quality software following agile practices and in close collaboration with our international customers.

Amongst others, your tasks include to

- understand the customer requirements

- translate it into software design

- code it and test it

- support our customers to adopt it

- mentor junior and intermediate developers

## **Requirements**

### **YOUR PROFILE**

Bachelor or master’s degree in computer science, natural science, or similar degree

Strong knowledge (5+ years) of ABAP development experience

- ABAP OO

- SAPUI5/Fiori

- ABAP-CDS

- SAP Analytics Cloud is a plus

- SAP BW4/HANA is a plus

Experience with agile practices in software development

Excellent communication and presentation skills

Positive, customer-focused interpersonal skills and attitude

A plus will be skills and experience in:

Knowledge of the banking or insurance business

## Benefits

### WHAT WE OFFER

The opportunity to work together with some of the smartest professionals on a very ambitious project and to help shape the rapidly changing financial landscape, while advancing your career

We combine a pragmatic, fast-paced start-up culture with years of development expertise, a strong reputation on the market, and a long-established customer portfolio

You will be offered growth opportunities based on merit and individual goals, as well as the space to bring new ideas, drive innovation and challenge the status quo

A competitive compensation package

### SAP FIONEER'S DIVERSITY COMMITMENT

To harness the power of innovation, SAP Pioneer invests in the development of its diverse employees. We aspire to leverage the qualities and appreciate the unique competencies that each person brings to the company.
