Senior Business Analyst – OP01011-01

Are you in Argentina, Brazil, Colombia, Chile, or Costa Rica? Join us as we actively recruit in these locations, offering a comfortable remote environment. Submit your CV in English, and we'll get back to you! We invite a skilled, proactive, and autonomous Business Analyst to join our team and contribute to the enhancement of a large enterprise project. As a Business Analyst in our team, you will have a chance to work on a project with multiple sub-projects that operate under one umbrella. Your key responsibility will be to act as a Product Owner with a focus on three key components: AI/ML, Data Management, and ATL.

What's in it for you:

Be part of an international team working on an enterprise-level project with an engineering innovation mindset

Get a chance to suggest ideas and see them implemented, enjoying a high level of autonomy in a long-term cooperation

Benefit from following a by-the-book comprehensive SDLC process, with strict compliance with Agile methodologies

Is that you?

5+ years' experience in a BA/Product Owner role

Experience in creating product/feature roadmaps

Proficiency in creating User Acceptance Testing (UAT) structures

Excellent analytical and communication skills

Ability to classify and arrange data in the most convenient way

Ability to simplify complex concepts for effective communication

A good command of BA methodology and tools (Story Map, Jira, Confluence)

Experience with bug tracking, collaboration, and modeling tools

An agile mindset and experience working in agile environments

Upper-Intermediate English level (written and spoken)

Desirable:

Proficiency in working with API services using a real-time development platform

Technical background: a comprehensive understanding of SDLC, Git flow, infrastructure, data storage, and API communication principles

Key responsibilities and your contribution

As a Senior Business Analyst, you will play a critical role in defining business objectives, ensuring seamless collaboration between teams, and delivering high-quality products that meet client needs.

Facilitate defining business objectives, product vision, and scope

Act as a liaison between business and delivery teams, ensuring seamless integration

Own, prioritize, and fulfill product backlog

Prepare a delivery roadmap in collaboration with the delivery team and define releases

Work closely with System Architects and Engineers to understand the technical aspects of the work

Ensure successful delivery of features into production, removing any technical and business blockers along the way

Provide support for marketing, sales, due diligence, compliance activities, and onboarding of new clients

Present the delivery to stakeholders and clients
