Senior Associate

### Job Description & Summary

A career in our Corporate Transfer Pricing practice, within Transfer Pricing services, will provide you with the opportunity to help our clients develop compliant, tax efficient structures that help advance their business goals. You'll focus on all aspects of documentation planning, dispute resolution, and advance pricing agreements.

Our team helps our clients with a range of transfer pricing solutions including compliance, advancing pricing agreements, and defence and dispute resolution. You'll focus on helping clients with business transformation that ultimately helps advance their business goals.

To really stand out and make us fit for the future in a constantly changing world, each and every one of us at PwC needs to be a purpose-led and values-driven leader at every level. To help us achieve this we have the PwC Professional; our global leadership development

framework. It gives us a single set of expectations across our lines, geographies and career paths, and provides transparency on the skills we need as individuals to be successful and progress in our careers, now and in the future.

As a Senior Associate, you'll work as part of a team of problem solvers, helping to solve complex business issues from strategy to execution. PwC Professional skills and responsibilities for this management level include but are not limited to:

**Business Analyst Position:**

**Establishing effective working relationships directly with business and dev teams from multiple workstreams, and key stakeholders through proven communication/ interpersonal skills;**

**Working with product and technical teams to define business requirements and map to architecture framework from which dev teams can build product for use at scale;**

**Streamlining and improving internal and external reporting through a proven analytical background;**

**Understanding and reporting on key performance indicators;**

**Applying project management functions in the support of and integration with key business and strategic priorities, including forecasting, budgeting and analyzing progress;**

**Documenting business and technical user stories to support design and development work;**

**Translating customer development feedback and researching activities into requirements for commercialization; and**

**Keeping up to date with the latest developments in business and emerging technologies including artificial intelligence, automation, etc.**

**Education** (if blank, degree and/or field of study not specified)

Degrees/Field of Study required: Degrees/Field of Study preferred:

**Certifications** (if blank, certifications not specified)
