About the Role:

We are looking for an enthusiastic and insightful Data Analyst to join our team. You will play a key role in being a cross-functional business partner while delivering high-quality reports, analysis, and actionable recommendations.

Do you have strong business insight with the desire to go deep and understand the core drivers of business metrics? Are you passionate about digging into data to find patterns? If so, we want to hear from you! **This position reports to the Sr. Analytics Manager and can be fully remote.**

What You'll Be Doing:

Build and maintain critical data transformations, business reports, and dashboards that effectively communicate insights across the organization.

Collaborate with team leaders regularly to make our data and methodologies come to life.

Identify areas of analytic and automation opportunity within IPSY and work with great focus to implement your vision.

Utilize best practices to ensure that work products run efficiently, conform to business needs, and respond to operational issues in a timely manner.

What We are Looking For:

Bachelor's degree in Economics, Computer Science, Mathematics, or other quantitative field, with a track record of academic excellence strongly preferred.

3+ years of experience performing analysis for an e-commerce, internet, or technology company.

Excellent SQL, data warehouse skills and experience writing complex queries on large data sets.

Expertise with data visualization and dashboard tools such as Tableau, Looker, or equivalent.

Superb communicator with a strong eye for business and social skills.

History of deriving actionable insights from complex data sets.

Understanding of statistics concepts.

Bonus if You Have:

Experience with Python and Git

Advanced degree

Facebook/Tiktok Ad experience

What We Offer:

Competitive salary (usd)

Paid time off & work from home flexibility

Learning & development programs
