Senior Java Developer (Anywhere)

[Apply Now](#)

Company: Globant

Location: Argentina

Category: computer-and-mathematical

Date:

Sep 20, 2023

Location:

AR

Company: sistemasgl

We are a digitally native technology services company where innovation, design and engineering meet scale. We use some of the latest technologies in the digital and cognitive field to empower organizations in every aspect.

Right now, we are looking for **Java Developers** to join our team at Globant!

You will get the chance to:

Work with professionals who have created some of the most revolutionary solutions in their fields.

Make an impact. Work in large-scale projects globally.

Develop your career in our Studios. Each Studio represents deep pockets of expertise on the latest technologies and trends and delivers tailored solutions focused on specific challenges.

Develop your career within an industry or multiple industries.

Work in the city you want, and be nourished by cultural exchanges.

Be empowered to choose your career path: we have more than 600 simultaneous projects, so

you can choose where and how to work.

Be part of an agile pod. Driven by a culture of self-regulated teamwork, each team -or

POD- works directly with our customers with a full maturity path that evolves as they increase speed, quality and autonomy.

What will help you succeed:

Believe and love what you do.

Have imagination and love innovating.

Being flexible & goal oriented.

Being capable of taking a step back to look at a bigger picture.

Intermediate English skills.

Proven hands-on Software Development experience working with the last versions of Java as the main programming language and familiarity using functionalities like Lambdas and Java Streams.

Object Oriented analysis and design using common design patterns.

Knowledge of Relational Databases, SQL and ORM technologies (JPA2, Hibernate, MyBatis)

Experience in developing applications using at least one popular framework (Spring, Hibernate, Play, JSF,...)

Understanding of code versioning tools, such as Git.

Familiarity with build tools such as Maven and Gradle.

Familiarity with continuous integration and continuous delivery development processes using tools like Jenkins or Bamboo.

Familiarity with cloud technologies and platforms.

At Globant we believe that an inclusive culture and a diverse environment makes us stronger.

We encourage people to have an inclusive spirit as our global footprint expands. We seek to

generate a place of inspiration and growth for everyone. A safe space, based on equity as a value, where everyone's careers can be promoted and developed in the same way. There is no innovation without diversity and there is no improvement without plurality.

This job can be filled from anywhere **#LI-Remote** in Argentina.

Are you ready?
