About Satellogic

Satellogic is a vertically integrated Earth Observation satellite and data company. We design, manufacture, and operate our own fleet of satellites, the Aleph-1 constellation, which delivers high-frequency, high-resolution imagery plus full-motion video.

Earth Observation imagery and data are key to monitoring change at scale, informing critical decisions, and ultimately helping solve the world's most pressing problems. Our mission is to democratize access to this information, making it affordable and available for those who need it across a wide range of industries, from climate monitoring and agriculture, to energy, infrastructure and many more. We want to do our part in building a world where every organization is prepared for the challenges of tomorrow.

With a growing team of more than 400 employees spanning 12 countries, Satellogic is a diverse group of purpose-driven professionals across software development, satellite engineering, operations, data science, manufacturing, and sales. We are excited to grow and welcome team members who push the limits, get things done, and never stop learning—all while being humble, honest, and empathetic.

About the Team

Satellogic's Finance team combines traditional financial planning and analysis with broader business decision making and strategy, directly supporting leadership.

The team is always learning and trying to push the limits, relying in part on the large diversity of people's profiles and backgrounds.

About the position

As the Senior Manager of the FP&A team, you will report to and work closely with the VP of Finance. You will lead and supervise corporate consolidation as well as the operations finance efforts at Satellogic through business partnership within the organization. You will also build the strategy and roadmap for the team.

Location

Preferred location is USA, Argentina or Uruguay.

Responsibilities

Lead and manage a team of 4 analyst's encompassing both Corporate and Operational FP&A functions

Oversee, drive, and analyze annual budget process and monthly forecast reviews including management presentations

Prepare a monthly consolidated forecast for the CFO and CEO using keylines, KPI's, and in-depth variance analysis of the business.

Prepare monthly and quarterly financial and management reporting, analyzing financial results and variances, assessing business performance and risks, and communicating key messages to the senior management team

Leads or participates in the preparation of presentations and ancillary materials for a variety of scenarios including, but not limited to: board and committee meetings, investor or banker meetings, earnings calls, investor conferences, and corporate development

Leads process administration for the FP&A department, and looks for areas of improvement within the team and for the business partners

Manage and develop direct reports through proactive approach to target setting and continuous feedback

Other tasks or ad-hoc work as requested by the manager and business partners in the areas of investor relations, FP&A, cost and price analysis, and M&A.

About you

Experience

Minimum of 5 years of relevant experience within FP&A, Accounting, or other relevant corporate finance function, including 2+ years in a corporate finance management position

Recent experience in strategic finance functions at a high-growth technology company is preferred.

Bachelor's Degree in Business, Accounting or Finance preferred.

Strong MS Office & GSuiteskills needed, particularly Excel or GSheets and PowerPoint or Slides. Candidate should be comfortable with financial modeling and working with large amounts of data

Knowledge of or experience with data science or business analytic tools; direct experience with Workday Adaptive Planning is a plus.

Fluent in English; fluency in Spanish is a plus

Skills

Demonstrated ability to communicate effectively, both orally and in writing within Finance, as well as cross-functionally and with leadership.

In depth accounting background, and ability to review and analyze financial reports and present financial information to a non-financial audience in a concise and easily comprehensible manner.

Proficiency in financial systems, use of a financial planning tool, as well as in-depth knowledge of an ERP system and processes therein; direct experience with Acumatica is a plus

Experience compiling and presenting high level presentations to the Board of Directors, Investment Bankers, or other external stakeholders

Experience in a public company FP&A or Accounting team developing materials for earnings calls and public shareholders

Ability to work autonomously through excellent time management, planning and organization skills with ability to manage multiple priorities simultaneously.

Ability to think and act in the best interests of our internal customers, employees and various stakeholders including collaborating, constructively disagreeing, and executing in a complex, fast-paced environment.

Exceptional decision-making and analytical skills.

Diversity Commitment

Satellogic values diversity and inclusion and is an equal opportunity employer. We are convinced that hiring and developing top talent from around the world for any given discipline will drive innovation, generate new solutions, and deliver a superior product to our global customer base. We work to build an equitable and inclusive environment in which all people, regardless of gender, race, religion, or background, can come together to do their best work.
