SENIOR MANUAL/AUTOMATION QA ENGINEER

[Apply Now](#)

Company: Svitla Systems, Inc.

Location: , , Argentina

Category: other-general

Svitla Systems Inc. is looking for a Senior QA Manual/Automation Engineer for a full-time position (40 hours per week) in Argentina. Our client is a web-based software company that provides business development products and services to the hospitality industry. They help hotels, CVBs, and other venues drive revenue by meeting market intelligence. Powered by the industry's largest source of historical data on actualized meetings and events, clients' products enable time-saving tactics for booking better-qualified group business, competitive benchmarking, portfolio revenue-growth strategies, market share gains, increased RevPAR, and group trend forecasting. As a globally recognized meeting and group data provider, they offer extensive insight into market analytics, group industry trends, and robust benchmarking. The technology gives hoteliers the tools to define market potential, target the most profitable group opportunities, increase market share, identify and develop new customers, and gain insight into group characteristics and booking patterns.

Requirements: Proactive, agile, and able to multi-task and reprioritize Analytical mind and problem-solving aptitude a plus Ability to clearly document and troubleshoot errors Experience with the Agile methodology and regression testing a plus Understand how to read a test plan and execute test cases Experience working on large-scale websites is a plus 3+ years of working as a Quality Assurance professional or equivalent 1+ year of experience in Automation QA Responsibilities: Execute test cases (manual) across web platforms and analyze results Evaluate issues, understand the user's intent and the contributing factors of the issue Write detailed and easy-to-understand bug tickets Communicate risks to leads and manager as needed. We Offer: US and EU projects

based on advanced technologies. Competitive compensation based on skills and experience. Remote-friendly culture and no micromanagement. Bonuses for recommendations of new employees. Bonuses for article writing, public talks, other activities. 15 vacation days, 10 national holidays, sick leaves. Udemy unlimited training account. Free webinars, meetups and conferences organized by Svitla. Fun corporate celebrations and activities. Awesome team, friendly and supportive community! About Svitla: Svitla Systems is a global trusted IT solutions company headquartered in California, with business and development offices throughout the US, Latin America, Europe, and Asia. Svitla is an outspoken advocate of workplace flexibility, best known for its well-established remote culture, individual approach to our teammate's professional and personal growth, and family-like environment. Since 2003, Svitla has served a wide range of clients, from innovative start-ups in California to mega-large corporations such as Ingenico, Ampliance, InvoiceASAP and Global Citizen. At Svitla, developers work with clients' teams directly, building lasting and successful partnerships, as a result of seamless integration with on-site processes. Svitla Systems' global mission is to build a business that contributes to the well-being of our partners, personnel and their families, improves our communities, and makes a lasting difference in the world. Join us! Share If you are interested in our vacancy, please send your CV. We will be happy to see you in our friendly team :)
