

Senior Manual QA Engineer

[Apply Now](#)

Company: Oppizi

Location: , , Argentina

Category: other-general

We are currently seeking a motivated and experienced Senior Manual QA Engineer to join our growing Tech Team at Oppizi. This is a remote position open to candidates in Argentina or within the UTC-3 time zone countries.

About Oppizi Oppizi is the first major multi-channel player in offline performance marketing. We've built technology that enables tracking, scaling, and optimization of flyer campaigns. We offer five channels: Hand-to-hand (in people's hands), Door-to-Door (in people's mailboxes), Direct Mail (in people's mailboxes via the national post service), Door Hangers (by leaving them on the doorknobs of residential properties or on their cars), and Sampling (by providing the target audience with relevant products). We operate in 10 countries, with the main ones being Australia, New Zealand, France, the UK, the US, and Canada. We are very privileged to work with flagship accounts like Uber, DoorDash, Getaround, DiDi, Deliveroo, and many others.

About the job A system professional who wants to work in a collaborative environment. As an experienced Manual QA, you will have the ability to share new ideas and collaborate on all the Oppizi projects and collaborate with the entire tech team. The role will be to assist the team of engineers to release faster and to consolidate the stability of the code of the company. You will be working with different extensive environments, Platform, API, and Mobile App.
