Senior Quality Assurance Engineer (LatAm)

[Apply Now](#)

Company: ReflexAI

Location: Argentina

Category: other-general

Reports to: Director of Software Engineering Location: Latin America Hours: Full-time Salary: \$35K - \$65K About ReflexAI ReflexAI brings the best in machine learning and natural language processing to mission-driven, people-centric organizations via innovative tools that transform how they train, develop, and empower their frontline teams. About this role As ReflexAI's first quality assurance engineer, you'll act as a crucial link, ensuring that our products are not only reliable and scalable but also of the highest quality. Your responsibilities will include introducing robust quality assurance practices, performing detailed software testing, and ensuring our services are secure, bug-free, and pixel-perfect. While automating testing will be a significant part of your role, the ability to roll up your sleeves and pitch in with manual testing is also essential. Our team uses Typescript, with NextJS framework on the front-end and NestJS on the back-end. We use Playwright for automated end-to-end testing, and Locust for load testing. You should be excited about being a part of an innovative organization that makes a measurable impact across important industries including crisis response, public safety, healthcare, and more. What you'll do Collaborate with product managers and engineers to understand requirements, functionality, and performance expectations Lead the creation, modification, and execution of detailed software test plans, automated scripts, and programs for testing Perform hands-on front-end, back-end, and UI testing to ensure our services are pixel-perfect, secure, and bug-free Conduct hands-on testing across various devices, operating systems, and browsers Expand our testing automation with Playwright to increase efficiency and accuracy Collaborate closely with product managers and engineers to identify, reproduce and document bugs or

defects Validate bugs reported by customers through support tickets Requirements for a great fit Very strong attention to detail Excellent communication and collaboration skills across modalities including written materials and live interactions Open mindedness as demonstrated by ability to consider other perspectives, change an opinion in the face of new data, and constant desire to learn Significant experience (typically 3+ years) testing SaaS applications using both automated and manual methods Compensation Compensation ranges are for Latin America-based team members. Stock options are offered in addition to cash compensation. Powered by JazzHR
