

Senior Structural Engineer

[Apply Now](#)

Company: Utopia

Location: Argentina

Category: computer-and-mathematical

Utopia Design is looking for ~~remote~~ Senior Structural Engineer for Luxury Hospitality Projects. The ideal candidate will have minimum of 8 years' experience in leading the design development of innovative structural designs for complex geometry roofs, facades and cantilevering elements.

Responsibilities:

Lead structural design development of high end luxury villas and hotels

Collaborate on a daily basis with the internal design office, Client's representatives, local designers and third party consultants

Provide leadership and, if needed, mentorship to the internal design office and local designers, advising most cost efficient, modern and optimal structural design methods and practices

Ensure seamless integration of the initial design intent

Oversee designer's, consultants and contractor's work and review their design submissions

Lead in the creation and maintenance of a corporate design guideline for the structural aspect, which will ensure alignment with employer requirements on a company level

Requirements

Graduated civil engineer with a bachelor degree in structural engineering

6 years minimum of structural design development

2 years minimum in a position of senior engineer or team leader

Complex steel structure design experience like roofs, canopies, facades, long-span structures etc.

At least two completed complex construction projects from concept adaptation stage to the completion

Applied knowledge of Tekla or other structural modelling and calculations software, Revit compatible is preferable

Applied knowledge of Autodesk Revit, AutoCAD and Navisworks

Professional level **English (C1)** and **Spanish/Portuguese**

Considered as an advantage:

experience in bionic, generative patterns, parametric and computational design

Benefits

Salary and benefits are competitive and based on candidate experience.
