Software Engineer (Dotnet core + azure) - EST

[Apply Now](#)

Company: RH Visión

Location: Argentina

Category: computer-and-mathematical

We are seeking a highly skilled and motivated individual to join our team as a Software Developer. In this role, you will collaborate with cross-functional teams, including product and architecture, to analyze, design, develop, test, maintain, and implement premier software solutions. Responsibilities: Perform full life cycle application development, including researching available technical options for features, providing guidance and feedback on the findings, and building proof of concepts to confirm the best approach. Determine optimal solutions for architecture, efficiency, maintainability, and scalability in cooperation with developers and architects. Aid Product Management in the creation of product roadmaps and ensure objectives are realistic and achievable. Collaborate with Principal Engineers to create solution designs, following Architectural guidance and design. Mentor junior developers, providing guidance and support to foster their professional growth. Requirements: Bachelor's or a Master's degree in Computer Science or a related field. 5 years of .NET software development experience building web-based applications Proficiency in the Microsoft development stack, including .NET Core and .NET Framework 4.5. Strong knowledge of the C# programming language. Hands on experience on Azure based Architectures. Proven ability to design solutions with modern architecture patterns background: Microservices, SOA, Domain-Driven Design, CQRS, Asynchronous Messaging, Service Bus, Event Sourcing, APIs, Web Services Experience with RESTful services, ORM, T-SQL, JSON, MVC, XML, JavaScript, HTML, and CSS Apply now!
