[Apply Now](#)

Company: Eleks

Location: Argentina

Category: business-and-financial-operations

ELEKS is looking for a Solution Business Analyst to join our team in Buenos Aires.

## ABOUT CLIENT

Our client is one of the largest insurance brokers in the world, working in the insurance business domain and providing risk management, insurance and reinsurance brokerage, and investment banking solutions.

## REQUIREMENTS

5+ years of experience in business analysis

Experience with BA techniques (Process Modeling, Data Dictionary, User Stories, etc)

Experience on midsize or large projects (10+ people)

Understanding of the ERP system implementation process

Strong negotiation, presentation, and facilitation skills

Experience in conducting the requirements elicitation sessions, familiar with different requirements elicitation techniques

Strong business requirements building and management skills

Capability to choose the optimal requirements organization and modelling technique

Ability to see the big picture, plan the work approach properly, and move forward with small steps

Ability to work independently, organize proper stakeholder management, and own BA processes workflow

Ability to adapt to project changes during the project flow

Experience in process description, familiarity with BPMN notation and different process description tools

Competency in Microsoft applications, including Word, Excel, and Outlook

Excellent planning, organizational, and time management skills

Excellent written and oral communication skills

Advanced level of English

## **RESPONSIBILITIES**

Define business needs and business change drivers

Manage customer expectations and translate needs into effective solutions

Elicit requirements using different BA techniques (interviews, focus groups, document analysis, requirements workshops, surveys, site visits, business process descriptions, use cases, scenarios, business analysis, task, and workflow analysis, etc.)

Critically evaluate information gathered from multiple sources, reconcile conflicts, decompose high-level information into details, and distinguish user requests from underlying needs

Document, analyze, and prioritize detailed business requirements based on users and business needs

Proactively identify improvements that would increase efficiency or productivity in work effort, processes, or application features

Establish and maintain positive relationships with all stakeholders

Lead the team at the project

Conduct BA team coaching and mentoring (subordinate RAs and BAs, QAs, etc.)

Contribute to continuous improvement of business analysis practices, as well as other

procedures

Develop requirements and other project documentation templates

Conduct requirements audit

### **What will you get with ELEKS**

Above average compensation

Close cooperation with a customer

Challenging tasks

Competence development

Ability to influence project technologies

Projects from scratch

Team of professionals

Dynamic environment with a low level of bureaucracy

### **ABOUT**

ELEKS is a custom software development company. We deliver value to our clients, thanks to our expertise and experience gained from working as a software innovation partner since 1991.

Our 2000+ professionals located in the Delivery Centers across Eastern Europe and sales offices in Europe and North America, provide our clients with a full range of software engineering services. These include product development, QA, R&D, design, technology consulting and dedicated teams.
