

# Argentina Jobs Expertini®

## Sr AI/ML Engineer

[Apply Now](#)

Company: Rocbird

Location: Argentina

Category: computer-and-mathematical

As a Senior Software Developer specializing in AI model building and OpenAI Assistants API development, you will be responsible for building, tuning small-scale, non-foundational AI models. You will also be responsible for the retraining and fine-tuning of existing models to ensure optimal performance. Additionally, you will contribute to the development of new AI solutions.

### **Responsibilities:**

#### **AI Model Building:**

Design, develop, and implement small-scale AI models to address specific business requirements.

Collaborate with cross-functional teams to understand client needs and translate them into effective AI solutions.

Stay current with the latest advancements in AI and machine learning to continuously enhance building techniques.

#### **Model Retraining/Fine Tuning:**

Implement retraining and fine-tuning strategies for existing AI models to improve accuracy, efficiency, and adaptability.

Work closely with data scientists to analyze model performance and identify areas for enhancement.

Develop and maintain documentation for retraining processes to ensure scalability and reproducibility.

#### **OpenAI Assistants API Development:**

Utilize the OpenAI Assistants API to integrate intelligent features into applications and services.

Collaborate with the development team to architect, implement, and optimize API-integrated AI solutions.

based solutions.

Troubleshoot and resolve API-related issues, ensuring seamless integration with our software offerings.

### **Collaboration and Communication:**

Engage in effective communication with team members, stakeholders, and clients to gather requirements and provide updates.

Mentor junior developers and contribute to a collaborative and innovative work environment.
