

Argentina Jobs Expertini®

Sr Backend Developer

[Apply Now](#)

Company: RH Visión

Location: Argentina

Category: computer-and-mathematical

Responsibilities:

Developing and maintaining modern web applications using JavaScript/Typescript, and NodeJS for backend.

Writing high-quality, efficient code and collaborating with designers on UI/UX implementation.

Building backend solutions with NodeJS, including data modeling and storage with SQL (Postgres).

Working on data-intensive applications, ensuring collaboration within and outside the team, and participating actively in agile methodologies.

Managing serverless architectures, utilizing AWS services (API Gateway, S3, Cognito, IAM, CloudWatch, Lambda), and conducting software testing with jest, mocha/chai.

Supporting the production environment on a rotational basis and demonstrating accountability for deliverables.

Qualifications:

5+ years of work experience with modern web application development

Passion for writing high-quality code in JavaScript/Typescript

Strong practical knowledge of Web technologies (Frontend: React, typescript, backend: NodeJS, Typescript).

Experience building SPAs and NodeJS backend solutions.

Very good understanding of data modeling and storage using SQL(Postgres)

Ability to collaborate with designers to review and implement UI/UX designs

Deep interest and expertise in building data-intensive applications

Very good spoken and written communication skills in English
