Technical Team Lead (Amazon PPC)

[Apply Now](#)

Company: CONEXIONHR

Location: Buenos Aires

Category: other-general

The company is the most comprehensive, powerful, all-in-one software solution for product research, market research, Amazon SEO, and advertising management for consumer brands and service providers selling on Amazon.

As a Technical Team Lead you will:

- Coach and lead 2 to 5 developers to design the best architecture and deliver with high quality.
- Lead team delivery.
- Partner with PPC experts to develop leading tools, review requirements.
- Break down complex requirements into achievable goals along with Engineering Manager.
- Do programming – your hands-on commitment to success.
- Do code reviews, estimate and manage engineering efforts.
- Watch Developers's tasks progress, escalate and resolve blockers.
- Do quality failures RCA(root cause analysis) and make sure follow-up actions executed.
- Drive innovations in data processing, storage and scraping – ideate and run PoC for new tools, libs and third-party services.

As a Technical Team Lead you will own:

- A team of up to 5 Developers and 1 QA.
- Architecture's Design, Scalability, Maintainability and Changeability.
- Implementation Quality and Performance.
- Quarterly Team Delivery OKRs (along with Product Manager)

- All above for the new Amazon PPC module.

You'll be a great fit if you have:

- You bring 8+ years of hands-on and leadership experience in NodeJS, Javascript, AWS.
- You have experience in development of Amazon PPC automation solutions (must have)
- Your architecture development skills are top-notch – microservices, serverless, event driven, integrations, automated tests topics, 1M+ of daily data points – are your daily topics.
- You have a proven track record in a SAAS tech lead role in the cross-functional (ideally) team environment.
- You have a dedication to engineering excellence as we are quality first.
- You have a passion for innovation – scout, learn and implement new technologies.
- You have experience with Agile methodologies.
- You enjoy learning business, deliver solutions that bring value and see clients using them.
- You are fluent in English.

What you'll get:

- Technical leadership position – boost your hard and soft skills.
- Understand the complex domain of Amazon PPC advertising.
- Technical challenges – huge data set, data scraping and processing, async data updates, massive computation needed.
- Architecture that goes far beyond simple Node/React web app.
- Freedom to develop architecture solutions.
- Hire, lead and coach Developers in OKR-driven environment.
- Be part of the cross-functional team – Product Manager + Product Designer + Tech lead + Developers + QA – owning several Functional Modules and deliver value having the deep understanding of client's needs.
