

Argentina Jobs Expertini®

WEB UI ARCHITECT

[Apply Now](#)

Company: Svitla Systems, Inc.

Location: Argentina

Category: computer-and-mathematical

Requirements:

At least 15 years of experience focused on UIs, with at least 5-10 years of it being hard-core web UI, heavily oriented toward React.

Years of perspective with Web React.

Superb communication and leadership skills. You will be part of a team and be able to raise the vision and skill level of other engineers.

The ability to step into negotiations, suggest solutions and take a leadership role in project management.

A good reader, writer, and speaker of English.

Friendly, patient, and cooperative person.

Responsibilities:

Excel in technical aspects and lead projects from a business perspective.

Be a full-time employee of a startup (with its corresponding pros, like equity, and cons, like uncertainty) in an interesting problem domain that involves cybersecurity, organizational identity, and hardcore UX/UI issues, and you are willing to make a multi-year commitment to the right opportunity.

Listen to product management stakeholders and do what those people sincerely intend, not

just what they may say in a Jira ticket. It is critical to be good at knowing when to push back and how to push back, reading between the lines, and anticipating where the UI should go based on a long-term vision.

We Offer:

US and EU projects based on advanced technologies.

Competitive compensation based on skills and experience.

Annual performance appraisals.

Remote-friendly culture and no micromanagement.

Bonuses for recommendations of new employees.

Bonuses for article writing, public talks, other activities.

15 vacation days, 10 national holidays, sick leaves.

Udemy unlimited training account.

Free webinars, meetups and conferences organized by Svitla.

Fun corporate celebrations and activities.

Awesome team, friendly and supportive community!
