

Woodframe Structural Engineer with RISA3D experience

[Apply Now](#)

Company: Uptalent.io

Location: Argentina

Category: computer-and-mathematical

Uptalent.io is seeking a highly skilled and experienced Woodframe Structural Engineer to join our fast-growing team. As a Woodframe Structural Engineer, you will have the opportunity to work with the top talent from Latam and contribute to some of the most exciting and impactful projects around the world. Uptalent.io is a global platform that connects the best companies with the best talent, and we are looking for an individual who shares our passion for excellence.

Responsibilities

Design and analyze the structures of wood-frame buildings, (mainly Residential projects) ensuring they meet applicable codes and standards.

Develop comprehensive structural engineering plans and make recommendations based on your findings.

Work closely with architects, builders, and other engineers to ensure that all structural components are properly designed and integrated.

Use structural analysis software to model and design wood-frame structures.

Manage project budget and timelines, identifying conflicts and making recommendations for corrective actions.

Provide technical guidance and mentoring to team members.

Requirements

At least 4 years of experience in woodframe structural engineering in projects for the United States or Canada.

Proficient in RISA 3D (Mandatory)

Excellent problem-solving skills and critical thinking abilities.

Strong attention to detail and ability to complete projects within given timelines.

Exceptional written and verbal communication skills in English.

Benefits

Work From Home or anywhere.

Highly Competitive Compensation.

Work for the most exciting companies in the US.

Flexible Schedule.

Healthy Work-Life Balance
